DIRECTIONS: Mix 1 serving with 250 ml liquid to make a shake. Mainly drink after training, but can be used any time during the day. Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such.

Fourstar Protein is a nice blend of 4 great animal proteins, moreover, we added the digestive enzymes Papain and Bromelain! Our quality protein sources include whey protein, total milk protein, the excellent micellar casein and egg protein. These sources have various amino acid profiles, so it can be used any time during the day, including before going to bed. This also means that Fourstar Protein is great for muscle gaining. Its high protein content contributes to the growth and maintenance of muscle mass and also to the maintenance of normal bones*. These animal proteins are so-called complete proteins, because they provide the body with all necessary types of amino acids.

*These statements have been scientifically proven by the European Food Safety Authority (EFSA) and authorized by the European Commission (EC).

Allergen info: Made with milk and egg products. Manufactured in a facility that processes soy, milk and egg proteins, and gluten, and peanuts!

Warnings: KEEP OUT OF REACH OF CHILDREN! DON'T EXCEED THE DAILY RECOMMENDED DOSAGE!

Store in a cool, dry place. Heat and sunlight may damage the bag!

Best before end: see on packaging. (MM/YYYY)
Batch number: see on packaging.
